SUMMARY

I aim to become a SOC Analyst. In the short term, I am seeking an internship opportunity to strengthen my knowledge, gain hands-on experience, and apply what I have learned to real-world scenarios. In the long term, I hope to contribute my skills and experience to the CyberSecurity community and help reduce information security incidents in Vietnam.

SKILLS

Security Monitoring (SIEM)	Basic skills in using SIEM platforms for log analysis and threat detection. Hands-on experience with Splunk and Elastic SIEM on TryHackMe labs; deployed and used Wazuh in a classroom lab environment for log aggregation and alerting.
Network Analysis	Basic understanding of identifying and evaluating anomalous network behavior through packet inspection and network traffic analysis. Tools Used: Wireshark, Zeek.
Digital Forensics	Basic understanding of digital forensics including memory and disk analysis. Tools Used: Volatility Framework, FTK Imager.
Reverse Engineering	Basic knowledge of reverse engineering for PE files. Tools Used: IDA Pro, x64dbg.
Programming	Basic understanding of C/C++, C#, Python, and Java along with Data Structures and Algorithms.

PROJECTS

An Information Extraction Tool from Images for Digital Forensics

[Project Link](#)

The tool integrates utilities such as steghide and exiftool, along with custom-developed tools based on existing algorithms including Shifting Bit Color, PowerShell Extractor, LSB/MSB Extractor, XOR Comparer, and Edit Size Picture. It also integrates an AI agent using DeepSeek-SDK to support information processing.

Technical Analysis of Process Injection on Windows using x64dbg and Process Hacker

[Project Link](#)

Used Claude with MCP to automate malware analysis across IDA Pro, x64dbg, Process Hacker, and FakeNet-NG, covering static/dynamic analysis, network monitoring, IOC extraction, and YARA rule generation.

EDUCATION

2023 – Present

Ho Chi Minh City University of Technology and Engineering

Major: Information Security

ACTIVITIES

Teaching Assistant

Jan 2025 – Present

- Courses: Basic Networking, Operating Systems, Information Security.
- Supported lecturers in grading labs, reports, and examinations.
- Guided students in coursework, lab assignments, and technical questions.

Vice President, HCMUTE Information Security Club (HISC)

2025 – Present

- Actively participated in multiple CTF competitions.
- Focused on Cryptography and Forensics challenges.

HONORS & AWARDS

1st Place at Sinh Vien voi An Toan Thong Tin HCMUTE (HCMUTE CTFs) 2024 & 2025

SOC Level 1 Learning Path TryHackMe 2026
